

Cameron Carter

Salt Lake City, UT | 801-860-2355 | cameronkcarter@gmail.com

Professional Summary

Planner with four years of experience in land use, transportation, and community development planning. Experienced in ordinance development, GIS analysis, public engagement, and policy research. Skilled at preparing reports, presenting recommendations, and coordinating with agencies, developers, and community stakeholders.

Professional Experience

BIKE UTAH

Senior Planner & Project Manager

May 2022 - Present

- Managed 14 planning contracts since 2022 for Utah communities including Bluff, Parowan, Ephraim, Farr West, Eagle Mountain, Vineyard, Moab, Cache County, UVU, and Utah Lake Authority, overseeing technical analysis, public engagement, and plan development from project initiation through adoption.
- Conduct land use, transportation, and GIS analyses to evaluate development patterns, infrastructure needs, growth scenarios, and community impacts.
- Review and evaluate existing zoning codes, development standards, and local ordinances to identify gaps, conflicts, and ineffective provisions; develop ordinance amendments and implementation strategies to better align with community goals.
- Present findings and recommendations to elected officials, planning commissions, committees, and community stakeholders through public meetings and workshops.
- Coordinate with local governments, state agencies, consultants, developers, and community organizations to advance planning initiatives and support implementation.

Policy Analyst

May 2022 - Present

- Prepare ordinance language, technical reports, presentations, and legislative proposals for elected officials, agencies, and stakeholder groups.
- Draft legislation and policy amendments for the Utah Legislature, including 12 bills and 3 appropriations requests since 2022; three bills were enacted into law.

UTAH COMMUNITY DEVELOPMENT OFFICE— *Planning Intern*

Feb 2022 - Sep 2023

- Assisted rural and small town communities in Utah with planning initiatives, community engagement, GIS analysis, and grant writing.
- Reviewed zoning code and city ordinances for rural communities; identified code gaps and assisted with updates to align regulations with community development needs.
